

Mapping UN SDGs in the curriculum, including Fairtrade -related issues, Trade justice, and Ethical consumption.

Aims

- Understand if Sustainability/UN Sustainable Goals are addressed at the course level to devise strategies to meet the Sustainability Plan targets.
- Understand the general challenges to embedding Sustainability in the curriculum.
- Start conversations across the university about these topics.

Data collection

For this purpose, a list of words was created, and an exhaustive search was conducted to all programme specifications and module descriptors, by schools, both undergraduate and postgraduate levels. This exercise was conducted between January and February 2023.

Main results

Percentage of programmes specification and module descriptors containing the expression Sustainability and Sustainable Development across the university:

Document	Sustainability (%)		Sustainable Development (%)	
	UG	PG	UG	PG
Programme specification (N=338)	1.9	1.1	0.4	1.2
Module descriptor (N=2120)	6.0	2.6	0.8	0.6

FECE

At the module level:

- The topics/words identified: Sustainability; Justice; Sustainable Development; Justice; Production & Consumption; Corporate Social Responsibility; Population; Ecology. Climate Change; Ecology; Wellbeing; Sustainable Design; Recycling; Sustainable Construction; Population; Energy Efficiency; Water Management; Ecosystems; Biodiversity; Disaster and Risk Management; Desertification; Drought; Land Degradation; Cultural Diversity; Social Responsibility; Environmental Law; Water Scarcity; Equity.

At the programme level:

- Topics/word identified: Sustainability; Sustainable Development; Wellbeing; Population; Climate Change; Sustainable Construction; Water Management; Energy Efficiency; Principles of Sustainability; Ecology; Ecosystems; Disaster Risk Management; Social Responsibility; Biodiversity; Corporate Social Responsibility; Gender Equity.

FBSS

At the module level:

- Topics/Words identified: Sustainability; Sustainable Development; Social Responsibility; Corporate Social Responsibility; Wellbeing; Equity; Social Responsibility; Climate Change; Citizenship; Human Rights; Cultural Diversity; Ecosystems; Ecology; Justice; Sustainable Design; Energy Efficiency; Population; Disaster Risk Reduction; Democracy; Human Rights; Democracy; Equity; Environmental Law; Environmental Justice Population; Production And Consumption; Biodiversity; Drought; Climate Justice; Ecology; Planetary Boundaries; Degrowth; Gender Inequality; Environmental Sociology; Citizenship; Ecology; Cultural Diversity.

At the programme level:

- Topics/Words identified Sustainability; Sustainable Development; Social Responsibility; Wellbeing; Corporate Social Responsibility; Citizenship; Equity; Social Responsibility; Wellbeing; Corporate Social Responsibility; Citizenship; Equity.

FHSSCE

At the module level:

-Topics/Words Identified: Sustainability; Health and Wellbeing; Wellbeing; Justice; Human Rights; Cultural Diversity; Inclusion and Diversity; Global Citizenship; Citizenship; Population; And Anti-Racism; Ecology; Equity; Biodiversity; Ecosystems; Food Security; Nutrition and Sustainability; Equity; Climate Change; Recycling.

At the programme specification level:

-Topics/Words Identified: Sustainability; Wellbeing; Human Rights; Justice; Health and Wellbeing; Population; Citizenship; Health and Wellbeing; Populations; Food Security.

KSA

At the module level:

-Topics/Words identified: Sustainability; Sustainable Developmental; Sustainable Development Goals; Wellbeing; Justice; Sustainable Construction; Ecology; Equity; Climate Change; Anti-Racism; Sustainable Design; Environmental Law; Production And Consumption; Ecology; Recycling; Citizenship; Energy Consumption; Environmental Law; Sustainable Cities; Democracy; Cultural Diversity; Equity; Population; Biodiversity; Social Responsibility; Corporate Social Responsibility; Democracy; Corporate Social Responsibility; Environmental Justice; Recycling; Biodiversity; Ecosystems.

At the programme specification level:

-Topics/Words Identified: Sustainability; Sustainable Development; Wellbeing; Ecology; Climate Change; Gender Equity; Anti-Racism; Decolonisation; Water Management; Drought; Social Responsibility; Justice; Cultural Diversity; Sustainable Design.
